Experience

Bitstreet Technologies   Mumbai
Software Developer   *Jan 2016 – Dec, 2017*

- Managed multiple repositories using git-flow model among team of 4 developers.
- Contributions in logical and persistence tier of experimental **wallet app**, bitcoin(BTC)/bitcoin cash(BCH) gateway integration.
- Secured user accounts using **salting & hashing** and Multi-factor Authentication(2FA).
- **HMAC & Signing** applied to JSON-REST API calls.
- Studied & implemented **Nonce** between internal services.
- Developed stateless cursor based **pagination API** over MongoDB **collections** partitioned by key range. (*was reused twice in different application context in production*).
- Used **software multitenancy** on application server for resource sharing among different tenants.

Aasaanjobs   Mumbai
Software Development Engineer I   *Dec 2014 – July 2015*

- Refactored and wrote new responsive UI.
- Wrote Javascript code to handle REST endpoints and render dynamic html views.
- Wrote automated UI tests using PhantomJS - headless browser environment.
- Wrote python/js scripts to traverse spreadsheet data to fanout notifications.
- learned hands-on git best practices - resolving merge conflicts, branching, hotfixes, stash, interactive rebase.

California State University, Channel Islands   California
Technology & Innovation Student Assistant   *Aug 2019 – present*

- provided IT helpdesk support which involved imaging/upgrading/assembling/troubleshooting/ decommissioning computers, maintaining zoho inventory, as well as onsite customer service.

I maintain my list of active and past projects at rihbyne.github.io/diy.

Education

California State University, Channel Islands   California
Master of Science(M.S) in Computer Science   *Jan 2018 – Dec 2019(expected)*

- Currently working on continuous, topical crawler for my master's project.
- Lo-fi sketches & codework on two-way length converter & interactive dashboard - train/load/save handwritten digit classifier and display metrics of its performance.

Mumbai University, St. Francis Institute of Technology   Mumbai
Bachelor of Engineering(B.S) in Information Technology   *June 2010 – May 2014*

Skills

Tools & Programming: Python/Javascript/Node.js/Java, HTML5/CSS3, React(*learning*), AWS, docker, vim/ intelliJ, Django/Flask/Expess.js, Memcached, MongoDB, MySQL, Git.

Achievements

- Awarded and recognized as a "Top Performer", "Best Performing Team", "Meeting Expectations Plus Performance" for the year 2017 at Bitstreet Technologies.
